BROOKSOURCE APPROACH

1 Accelerate by standing up an agile data Brooksource team.

2 Align architecture so teams can adopt cloud native solutions for cost savings.

3 Set up future initiatives towards data mesh design patterns.

CUSTOMER SUCCESS STORY | FORTUNE 100 LIFE SCIENCES

Our customer was facing Data Migration and Consolidation challenges within their R&D Data & Architecture environment.

DISCOVERY | Needed Migration Roadmap | Resource Gaps | Lacked Governance & Security | No Optimization Strategy

PLAN

▸ Two AWS Architects created roadmap for migrating 41 applications to AWS

▸ Data Architecture flow map

BUILD

▸ Audited existing Data Warehouse ETL, Data Management & Reporting tools

▸ Onboarded execution team for lift & shift and re-engineering of applications

RUN

▸ Developed design pattern standards for cloud data management

▸ Brought in right-to-hire talent via Brooksource's Elevate program

▸ Validation/testing

OUTCOME | TOP 3 AWS PRODUCTS: EC2, S3, RDS

Brooksource Data Service pilot team was successful in customer's R&D group and will now build, maintain, and integrate applications across the enterprise.

ELEVATE PROGRAM

ELEVATE

Cloud leaders invest in our Elevate program to assist senior resources with execution and knowledge transfer. Elevate is our workforce transformation program focused on upskilling associate-level talent and building sustainable workforces.
