

CLOUD SOLUTIONS: AMAZON QUICKSIGHT MIGRATION

CASE STUDY: FORTUNE 100 HEALTHCARE CLIENT

OBJECTIVE

In 2023, our client was leading a large transformation effort across its Enterprise Analytics Organization. To avoid contract renewals, our client needed to migrate from its legacy MicroStrategy BI platform to their new vendor, Amazon QuickSight, by the end of 2024. Given our expertise in Amazon QuickSight and strong AWS partnership, Brooksource brought in a niche team to support the migration.

SCOPE

Our client leveraged our Professional Services and Elevate program to migrate 108 BI reports to Amazon QuickSight. The migration to Amazon QuickSight was complete in just six months, and after launching to Enterprise Clients no downtime or client touch points were required. Our consultants are now customizing preferred content and adding more functionality, controls, and dynamic parameters for all 600 end clients.

Our professional service solution includes:

- ▶ **Onboarded Niche Team** – A team of five experienced AWS consultants were engaged for the migration.
- ▶ **Customized Solution** – We provided our consultants additional training in Amazon QuickSight and are working toward various AWS certifications.

RESULTS

600 Enterprise Clients Supported by Amazon QuickSight

\$3M Will Be Saved in Consulting Spend Over a 24-Month Period

100% Consultant Retention & Ability To Hire

AT A GLANCE

Challenges

- ▶ Legacy MicroStrategy Platform
- ▶ Lacked Amazon QuickSight Expertise
- ▶ Needed a Cost-Effective Solution

Highlights

- ▶ Migrated & Consolidated 108 Reports
- ▶ Saved Client \$3M
- ▶ Completed Migration in Under Six Months

Location: Minnesota

Timeline: February 2023 – Present
